You say there's got to be a better way for me and you
And I say I dont think about it now 'cause I know what to
do
I can take you away, I can take you today, I know
nothing can stop us now

Run away with me lets get out of this place
We can take a ride and fly off into space
There's a big wide world that's waiting for you
If you want it come on and say we'll
Run Away. Run Away.

There's always gunna be someone who tries to pull you
down
Let them stay right here forever they will never leave
this town
Let's go disappear, let's get out of here, you know
nothing can stop us now

Run away with me lets get out of this place
We can take a ride and fly off into space
There's a big wide world that's waiting for you
If you want it come on and say we'll
Run Away. Run Away. Run Away.

If you want it, you can have it, don't let nothing or
nobody hold you down
I can take you away, I can take you today, better hurry
or i'll be gone, so come on.

Run away with me lets get out of this place
We can take a ride and fly off into space
There's a big wide world that's waiting for you
If you want it come on and say
Run away -
with me lets get out of this place
We can take a ride and fly off into space
There's a big wide world that's waiting for you
If you want it come on and say we'll
Run Away. (Repeat "Run Away" 3 more times)
