Animation

Breathes a cloudless mind

Fascination

Leaves the doubting blind

Until the circle breaks and wisdom lies ahead

The faithful live awake

The rest remain misled

Some will transcend spinning years

One as if time disappears

Innocence faded

The mirror falls behind you

Trinity jaded

I break down walls to find you

Callow and vain

Fixed like a fossil, shrouding pain

Passionless stage

Distant like brothers

Wearing apathetic displays

Sharing flesh like envy in cages

Condescending

Not intending to end

Some will transcend spinning years

One as if time disappears

Innocence faded

The mirror falls behind you

Trinity jaded

I break down walls to find you

Beginnings get complicated

The farther we progress

Opinions are calculated

Immune to openness

Beyond the circle's edge

We're driven by her blessings

Forever hesitating

Caught beneath the wheel

Innocence faded  
The mirror falls behind you  
Cynically jaded  
The child will crawl to find you.
