Let it out, let it out  
Feel the empty space  
So insecure  
Find the words  
And let it out

Staring down, staring down  
Nothing comes to mind  
Find the place  
Turn the water into wine

But I feel I'm getting nowhere  
And I'll never see the end

So I wither  
And render myself helpless  
I give in  
And everything is clear  
I break down  
And let the story guide me

Turn it on  
Turn it on  
Let the feelings flow  
Close your eyes  
See the ones you used to know

Open up open up  
Don't struggle to relate  
Lure it out  
Help the memory escape

Still this barrenness consumes me  
And I feel like giving up

So I wither  
And render myself helpless  
I give in  
And everything is clear  
I break down  
And let the story guide me  
I wither

And give myself away

Like reflections on the page  
The world's what you create

I drown in hesitation  
My words come crashing down  
And all my best creations  
Burn into the ground  
The thought of starting over  
Leaves me paralyzed

Tear it out again  
Another one that got away

I wither  
And render myself helpless  
I give in  
And everything is clear

I wither  
And render myself helpless  
I give in  
And everything is clear  
I breakdown  
And let the story guide me  
I wither  
And give myself away

Like reflections on the page  
The world's what you create  
The world which you create

Let it out let it out
