I don't wanna lose my way  
I don't wanna lose my way  
I don't wanna cause you pain

I don't wanna lose my way  
I don't wanna cause you pain

I don't wanna lose my way  
I don't wanna cause you pain

Distant:  
I just can't shake this drain  
I just can't shake this drain

You know that... I love you  
But this light shines so bright from me  
You know that I must find my heaven

You know that... I love you  
But this light shines so bright from me  
You know that I must find my heaven

I don't wanna lose my way  
I don't wanna cause you pain

I don't wanna lose my way  
I don't wanna cause you pain

I just can't shake this drain  
I just can't shake this drain

You know that... I love you  
But this light shines so bright from me  
You know that I must find my heaven
