V#1

Here we are just you and me

Going on a ride downstream

Being you the one I'll love forever

I'll seek you like a jewel to the end

Chorus

V#2

As you put your fingers in the waters deep

And as you slowly go to sleep

I'll kiss you and you would smile

I'll keep rowing for a while

Chorus

Chorus

You are all I need to make it through

One spark set a burning fire in my heart

And with your love and my might

I know we will make it through the night
