You are the one that made me,
Buried and betrayed me,
You are the one who threw me, away,

You are the one that did this,
Beg for your forgiveness,
Get down on your fucking knees and pray.

(CHORUS)

'Cos you're gonna, celebrate,
So stop running your mouth and no you don't have to
grieve,
Just relax, get inside,
You and I are gonna take a ride
Don't hate me, just for fun,
Left a little note saying what you've done,
And now I've got that off you're chest I'll stop digging a
hole so you can
Get some rest...

(FADED: To make sure... yeah... To make sure...)

You are then one that earned me,
Lit the match that burnt me,
But somehow I can't give you all the blame (all the
blame...)

'Cos I'm the one who met you,
I wish I could forget you,
But I keep crawling back to fan the flame (fan the
flame...)

(CHORUS X3)

(FADED: To make sure... you're... yeah... I need to make
sure... yeah... that
You're dead)
