I looked in his eyes I realized
How could he do this to me while I'm still alive

I had plans but they stay unfulfilled
I look dead to you but pain I feel

Why can't you see I'm lying here bleeding alone
This is my fight I'm gonna make it all alone

I die slowly
I got a message from above
I am forever I will carry on

I die slowly
I got a message from above
I am forever I will carry on

As he searched to find a sign of life
I remembered how I tried to smile

Suddenly I saw my friends in tears
The machine was dead and so the pain inside of me

Why can't you see I'm lying here bleeding alone
This is my fight, I'm gonna make it all alone

I die slowly
I got a message from above
I am forever I will carry on

I die slowly
I got a message from above
I am forever I will carry on
