"Rays Of A Frozen Sun"

Can you see
What I see?
All the beauty that has seized to be.
How could we
Go so wrong
To kill the paradise where we come from,
The one and only place where we belong?

Keep away
Let me be
Close the door
I don't want to hurt you more

Look around
Can't you see
We live to crash and kill
So won't you come with me?
We are the rays of a frozen sun
Rays of a frozen sun.

Broken glass,
Empty floors...
Tell me how these means could help the cause?
Wished to be
Someone else,
Somewhere else between the best of Hells.
And so we found a cure against ourselves.
