

Dreamgale "The Other Side"

Visit "[The Other Side](#)" on [MotoLyrics.com](#)

Curtains down.
No one around.
Lights dimmed out.
Your eyelids are moving.
Recovering consciousness.
Lucidity.
Distress.

They did what they should.
"It's for your own good."
They know what you need:
Protection, detention,
Deletion of memories.
"Stay in bed.
Forget."

Run, don't turn around.
Keep yourself above ground.
Will they be after your mind
On the other side?

You're misled.
What's in your head?
Perilous thoughts,
Forbidden ideas.
We'll make it all disappear.
Stay in bed.
Forget.

Run,
don't turn around.
Run
Detention, dillusion
Run
After your mind
Don't turn around.
