(narrator) Tonight Live from the Northeast Chandler Pavillion in Los Angeles California, Its the sound of tomorrow
celebrating 10 years of hits from rainbow records

Everyday at school girl I see your smiling face. The teacher tries to call on me but i cant concentrate.

Im to busy thinking all about your face. I know I'm in love with you but you don't even know my name.

CHOROUS:

Girl meets boy. Boy meets girl. They could fall in love in a perfect world but if boy and girl never meet than a perfect world could never be.

Come on girl. I love ya.

Every night I pray girl that you would notice me. I got a secret crush on you but we dont even speak.

I don't know my status or if 2 plus 2 is 5. But I know im in love with you and you dont even know Im alive

Chrous:

Girl meets boy. Boy meets girl. They could fall in love in a perfect world but if boy and girl never meet than a perfect world could never be.

Hey come on. I love ya girl. Come on Girl
