The dusk is gaining ground, lights flicker all around
And as I walk the lonely street, the snow is falling ever
faster

Looking to the sky, I wonder where you are,
The way you came into my life, filling every day with
laughter

Almost blind by the snowflakes on my face
Despite the chill I feel the warmth of your embrace
Intoxicated now, I stagger like a fool
I feel that surely I could float away...

I want to show you everything I see, the way I'm feeling
I need to be with you tonight, to hold your arms around
me
My love for you is deeper than the ddeepest snows of
winter
The greatest gift I ever had was you.

This sparkling crystal world, this magic winter land,
If I could share it all with you, and make-believe forever
after

Like a blanket over everything in sight,
In the hush I hear the silence of the night
The snow has covered all the streets we walked along
I hope you still remember me tonight...

I want to show you everything I see, the way I'm feeling
I need to be with you tonight, to hold your arms around
me
My love for you is deeper than the ddeepest snows of
winter
The greatest gift I ever had was you.

Can't remember feeling this way before
Do you know, do you understand what's going through
my heart
Well the way that I love you, I just hope you feel it too,
Tonight wherever you are...

I want to show you everything I see, the way I'm feeling
I need to be with you tonight, to hold your arms around
me
My love for you is deeper than the deepest snows of
winter
The greatest gift I ever had was you.
The greatest gift I ever had was you.

This is my song for you
