### "Never Knows Best"

Think it's warmer when the sun goes down  
I hear louder when I'm full of sound  
What I didn't say must have slipped my mind  
Flick your cigarette and go back inside

If any single melody in any single key could some how  
in someway remind you  
Of me

I'm not sure I'd wanna know  
I'm really not sure what best all  
Can you steal something that's free  
Can you turn time back to me  
I'm not sure I'd want to know

I think I'm done when the sun goes down  
I wanna hear nothing but your sound  
Vibration and frequency tearing me apart  
Reminding me of what I can't outsmart
