Sirens of the Apocalypse  
Howl in the halls of the Void  
Anthems of the Eclipse  
Tunes of a world to destroy

Rage of the Armageddon  
Blind Scylla of suffering  
Devouring their cultures  
Swallowing their gods

Their breed is sterile  
Their temples are rusted  
Worms blindly enjoying  
Fake orgasms of ashes

Morphing  
Life astral  
Muting  
Challenge eternal

Democratisation of genocide  
Annihilation of genes

Dying  
Melting in Fire  
Meaning of the Empire

Dawn of Fire  
Sun is rising  
Above the war fields  
Nuclear Orgasm  
Ocean of Fire  
Flooding the nations  
Devouring life  
Cancelling evolution

Their thrones are fainting  
Their idols are condemned  
Worms desperately screaming  
Their prayers are vain

All these visions appear  
To the new Templars  
Anticipate these aeons  
This is the prequel  
To the Nuklear Kult

Dusk of ashes  
Sun is falling  
Below the horizons  
Toxic clouds  
Contagious darkness  
End of History
