"Workin'"

Yeah I've been working,
Yeah I've been working all night long.
Yeah I've been working,
Working til the break of dawn.
And I feel so tired right now.

Yeah in the morning, when the evening kills the day.
Yeah in the evening, the evening is the time to play.
And I feel so tired right now.

Yeah in the morning, when the evening kills the day.
Yeah in the evening, the evening is the time to play.
And I feel so tired right now.

Yeah right now.
Yeah right now.
Yeah right now.
