[Music: KerÄänen, Words: MÄäkinen, Orjatsalo]

The garden, where we walked together  
As the wind was breezing, whispering  
Where we played with innocent smiles  
Under trees and leaves of green  
Leaves fell silently icy ground  
Flying away with the northern wind  
And they shine as silvery stars  
That fall on your nightly face

[Bridge 1]

So hear my voice, come with me  
Dream of eternity  
Join me and sing  
Tale of that silent night

[Bridge 2]

Sing with me, dream my dreams  
For me and for you  
Under the trees, growing forever  
Garden of eternity

[Chorus]

And we sing together as the winds called our names  
Eternally our lives entwine as vision foretold  
In that summernight, where shadows are warm  
An eagle cries high that melody so old

[Solo]

We shared the realm of secret dreams  
And eternal stars lightened the dark  
The moon blessed your glittering tears  
As you cried for our destiny  
In the twilight of shimmering stars  
Garden embraced by winter's heart  
Your hands holding me and burning the fear  
Forever within my heart

[Bridge 1]

[Bridge 2]

[Chorus]
