"Ode To The Sun"

It's gone from light to grey
But I'll move those clouds away
Letting the sun shine through
In this ode to you

Let the demons have their place
If so it's angels you'll create
And disguised within the dark
Light will wait

My heart, i owe you my soul

Will you please accept
Please accept this offer (it's over)
This is all for you

We flip towards the sun
Wheels skidding on the road
A flowing sea of red
The whole city groans

My heart, I owe you my soul

Will you please accept
Please accept this offer (it's over)
This is all for you
Transcend

Will you please accept
Please accept this offer (it's over)
This is all for you

Fiasco

Rubber neck passing motorist
Mangled tuna-can car rests
Repair this tattered skin
Hold it in your hand
You've already glistened through the window

You've already set us all free, free, free

Please accept

This is all for you
