[Words: Keranen]

[Music: Keranen]

In my dream I was in a valley  
By waters clear as ice  
Trees and mountains that surround me  
Nothing so beautiful have I ever seen  
Can a place like this these days still exist?  
A place people haven't destroyed yet  
There's no pollution, just fresh air  
There are no men who wouldn't care  
This is the paradise where I want to stay  
Where no one else can find a way

Where the Rainbow Ends  
There I go, there I mend  
There's the land of the free  
There's the place where I want to be  
There I go - Where the Rainbow Ends

Mystery of this place keeps fascinating me  
It preoccupies my mind, time after time  
When I look at the sky and I see birds fly  
It's a play at my theatre  
Into this dreamland I always come back  
Where my life goes on in the same, safe track  
I'll show you the place you've never been  
This is the paradise where I want to stay  
Where no one else can find the way

Where the Rainbow Ends  
There I go, there I mend  
There's the land of the free  
There's the place where I want to be  
There I go - Where the Rainbow Ends

[Solo]

[Chorus]
