

## Dredg "Sorry But It's Over"

Visit "[Sorry But It's Over](#)" on [MotoLyrics.com](#)

Distorted and complicated  
I'm sorry but it's over  
Essential to awaken  
I'm leaving

Here we are  
That's what it's all about  
I'm sorry but it's over  
To love here and to love this  
I'm finally breathing

Before you go  
There is something more to say  
Before you go  
There is something more to say

Persistent resentment  
I'm sorry but it's over  
Seduction for destruction  
I'm finally breathing

Tonight  
Tonight  
It's what it's all about  
Always

Before you go  
There is something more to say  
Before you go  
There is something more to say  
Before you go  
There is something more to say
