He said: patience is the key to  
For a change to ensue  
Warm the arctic cold  
And drop down  
To the ground  
Wait for the sound  
Of the cold

Take these words  
You'll have your day  
Live it as your last

He said: love will build your heart and  
Bring you up from the sand  
Now i wish to go  
Accept you bravery  
For it is all we are  
It's all we are

Take these words  
Beyond your way

You will find your  
Now...

He said: faith, distrust, and reason  
With this you'll be kneeling  
Before the world  
And drop down  
To the ground  
It's all we are  
It's all we are

Take these words  
Be on your way  
You will find your  
Now....
