#### Verse 1

When i'm apart from you  
Searching on my own or truth  
I always end up broken, beaten bruised, and feeling  
cheated  
When will i see the way? turn around and then remain  
Never to go back again, you are the only way

#### Verse 2

Indecision rises up  
I'm looking for a way out  
Pressure never seem to face confusion exalated  
As time turns to reality help me Lord this I pray  
To walk the road to glory

#### Chorus

I'm breathing in  
Fill every part of me  
I want to get lost in you  
I want to be where all my eyes see is you  
I walk this road  
Guide me lead me i will follow  
I want to be alone with you  
I want to get lost in you

#### Verse 3

Could anything take your place?  
Fill this desolated space?  
That dwells inside of me. the fear that grips each part  
of me  
I'm back on my knees  
Touch me take me let me free

#### Bridge

How can i not be moved?  
I'm on my knees gripped by you  
My soul cries out I thirst for you  
I swallow whole the beauty of you
