The worlds come crashing over me
The worlds is dim the feeling the same
Nothing ever seems to change
I can't close my eyes and make it fade away
The anwser on my knees
An existence i must pave

Gloria Gloria
The whole earth sings
Gloria Gloria
(Join with the angels sing)

Bridge

I know you're out there in the air
In the Atmosphere I'm not alone
I see the star the shines
The great divine
The everlasting truth
That cannot be denied
That cannot be denied
