An arm is off  
An eye is missing  
A face is cracked  
A mouth is rusting  
A dress is ripped  
A hand is stuck  
This mechanism  
Seems to be broken

But pull the string  
Still it can talk

"my name is kaledrina,  
And i love you very much"

When i woke up  
My arm was off  
My eye was missing  
My face was cracked  
My mouth was rusting  
My dress was ripped  
A hand was stuck  
This mechanism  
Seems to be broken

But pull the string  
Still i can talk

"my name is kaledrina,  
And i love you very much....."
