Downloading doves on your fancy computer  
You're shooting for love in the dark  
Hey once you've found her now go instant message  
Her name is a pretty good start

Ultima sits in her bedroom in texas and  
Waits for her hamsters to touch  
She lost her legs in a car crash three years ago  
She doesn't get around much

But she is hoping someday  
Somebody will take her away

Now that you got her address you can send her  
A matching attachment and face  
Slick rhododendrons you make out of paper  
With flowers that never lose shape

You have a video camera strapped to  
Your forehead in case she is true  
Smiling rewind as we die in slow motion  
(As if it's not happening to you)

Don't blow it all at one time:  
Some girls are harder to find

Don't be afraid of the dark ages darling,  
The stage has been set and your carriage is waiting  
To take you away from this place  
Where you'll meet your bride face to face  
Knowing her name is enough: Ultima...

Fox trotting globe trotting under your fingertips  
Tapping for oil in vain  
Surely you wont think to hold it against me  
It's such an unusual name

Someone is hoping to find  
Her limbs in an auction online  
Knowing her name is enough:  
Ultima esperanza
