I was such
Disconnected
I've had it all
Oh but watched it slip away
When the damage down
Is self-inflicted
It's no surprise to find it all end up the same

Then you
Shattered everything
All that's left is the truth and you and me
That's all I'll ever need
To make sure that I don't do the same old stupid things

I never said nothing when I shoulda said
This this gonna be different
I won't let me down
Girl I'm the author of broken hearts
I'm tired of causing pain I didn't mean to start
And I won't let me down
(No I won't) I won't let me down

Call it pride
Or indecision
It took so long
Oh for me to see
That I never loved
With conviction
And all I thought about was looking out for me

Then you
You risked everything
You came along and you saved me from myself
You won't ever see
The shadow of the fool I used to be

I never said nothing when I shoulda said
This this gonna be different
I won't let me down
Girl I'm the author of broken hearts
I'm tired of causing pain I didn't mean to start
And I won't let me down

(No I won't) I won't let me down

I know I've made enough mistakes
And there's only me to blame
If honesty could never lie
Then you would see the truth in my eyes
I know I can't run from myself
Without hurting someone else
So I'm standing my ground
Won't be letting you down
Cause I'll never do that me
Oh yeah, yeah

Never said nothing when I shoulda said
This this gonna be different
I won't let me down (I won't let me down)
Girl I'm the author of broken hearts
I'm tired of causing pain I didn't mean to start
And I won't let me down
(No I won't) I won't let me down
