Talking: I was closing my eyes
And I was singing away from the mic.
It wasn't in the mic so that's why,
It was my fault.
Alright, try it again, take two.

Oh yeah doo doo doo doo doo doo doo
I think about you every day
Sit down pick up my guitar and play
You serve, served as the inspiration
In so, so many ways, but now
Why is it that I find,
My well of inspiration has just run dry
Just keep turning up bli-e-ind
Not this time, not this time
Cuz I , I've sang to you a thousand times
This is the last love song
I get the feeling that you want to fly
This is the last love song
I'm not gonna sit around and wonder why
This is the last love song
Cuz lately I don't know how to say goodbye
So I'll do it with this last love song, yeah
doo doo doo doo doo doo doo
