"Hold Fast"

Visit "[Hold Fast](#)" on MotoLyrics.com

I hope this feeling never goes away
Never sleep at night, drift in and out all day
Try and get the best of me, living life this way

You gotta push yourself today
Don't just drink and dream
You gotta push yourself today, don't

When tonight is over
And yesterdays are all we got
I hope you made it count

I know I made it count
Hold fast tonight
Don't loosen up your grip
Tomorrow's not that certain
Hold fast tonight

You gotta push yourself today
Don't just drink and dream
You gotta push yourself today, don't

When tonight is over
And yesterday's are all we got
I hope you made it count

I know I made it count
Hold fast

When tonight is over
And yesterdays are all we got
I hope you made it count
I know I made it count
