"Im Memory"

Unnatural skies drift away calmly behind the trees right
before my eyes,
After that it gets dark rather quickly,
This changing of the weather brings a lack of hope,
As my thoughts drift away to a city in the south and its
said what you said, that day,

Well i've never seen that look in his eyes before, i
should have died he said eyes fixed on the floor
Well i've never seen that look in his eyes before, i
should have died he said thinking of her

Just as soon as a night change he was smoking and
laughing again,
[woaahhh]
Reminded me of years ago and telling me to never get
old.

Slowly the cancer wins, the cigarettes probably let it in
Slowly the cancer wins, chemo doesn't work, radiation
was a sin

Well i've never see that look in his eyes before, I should
have died he said eyes fixed on the floor
I've never seen that look in his eyes before, I should
have died thinking of her
