### "Burning Circles"

Visit "[Burning Circles](#)" on [MotoLyrics.com](https://MotoLyrics.com)

All around is the darkness  
When you are running for the light  
Deep inside you burns a fire  
You know it's your desperate heart

Flying high against the starlight  
Flying high where dragons die  
Now you see it's in the distance  
Burning circles catch you by surprise

Burn All around is the darkness  
Burn - When you're running for the light  
Burn - Deep inside you burns a fire  
Burn Burning circles in your mind

To the burning circles  
To the burning circles  
To the burning circles

You're burning in the heat  
It makes you sweat  
But you never feel it  
You feel the Black Voodoo Power  
Is it the end or just a dream?

Inside the circles you see the master's face  
Laughing at you with glimmering eyes  
Your soul is caught by the hands of doom  
Now you have to dance forever

All your life
