"All He Wanted to Know"

I like to go to bed watching my TV
Trip, trip on the dream express
Sure can change a lot

You say you'd like to know
Exactly how I feel
'Cause I'm either hot or cold
Never quite for real

Ooh yeah, he likes it

It's all he wanted to know
It's all he wanted to know
It's all he wanted to know
Kiss, kiss your beautiful lips

Watch them ruby red
You're everything
My precious fortune cookie said

I don't know, she likes it

Would you dare?
Could you care to take a chance?
I don't mind much
I don't mind, yeah much
