Not easily said
But easily spoken
I'm drifting away
Into the ocean
So far away

And I don't belong here
Or maybe I might
I'm drifting away
Into the ocean
So far away

I'm not gonna feel
The wave of change
No I, I'm not gonna feel
The wave of change

So pretty in white
A vision forgotten
Come, kiss me goodbye
Clouds covered in satin
Carry the bride

And so this is heaven
Not quite what I heard
I'm drifting away
Into the ocean
So far away, so far away
