"Pollute The Sound"

Visit "[Pollute The Sound](#)" on MotoLyrics.com

Living out your life beyond belief
We've come so far tonight
It's on my mind, it's on the sheets

Turn away from making the same mistake I swear I'd
never make again

We leave but through the night, beyond your needs
The summer wont last this time
It's on my mind, it's on the sheets

Turn away from making the same mistake I swear I'd
never make again
You'll never make me hate you again as hard as you
want me
As hard as you want me to

You know it's easy to let go
At least we need, at least we tried
To play to something never there

Turn away from making the same mistake I swear I'd
never make again
You're making the same mistakes
How could I pollute the sound with you?
Pollute the sound with you
