Kick in the brain, still the same, oh, please tell me
what's my name
hook in neck, fire storm, bloody rain, yeah it came
breaks my skull, hits my eyes, what a fun, where's my
arm
we're the heroes, victory, what's the caddish melody.
It's dedication for this creeping meat
requiem for corpse, the blues of the bat
my histeric hymn, my dance macabre
and wonderful charm of your big, burned head.
War is over, fight is over but blood is boiling (x2)

I am mad, maybe dead, sea of shit trash in mouth
talk of hate, bullets taste, no heartbeat, bloody sweat
noise in head, I see red, I'm unclean, leave me please
got no power, I can't cry, fuckin' nightmare every night
It's dedication for this creeping meat...
War is over, fight is over but blood is boiling (x2)
No, don't go, don't turn back, look at me, yeah, at me
living corpse, real wreck, here I am, don't forget
It's dedication for this creeping meat...
War is over, fight is over but blood is boiling (x2)
