"Polish Blood"

I'm not too wise but just try to call me stupid
my morals are pretty low, but just try to tell me so
my trap never shuts but just try to say I'm talking shit
My goddamn, my, my polish blood
Walking up I'm never sure what I'll see outside my
window
will there be a ragging mob, will the police sweep them
away
who will be the leader, who will be the leader now

the purple people or the gray
I think I am somebody, I can't imagine why anyone
would disagree
never pro- and alway con- must be in my DNA
my goddamn. God! my po... my polish blood
My polish blood!!
Polish blood! (x2)
My, my goddamn polish blood (x3)
