Deep darkness, hard stench, the dirt, the pressure
poison - gas, the circus, we vade in the sea of shit
my fear, my blindness, impotence, it makes disorder in
brain

we stand in heap of dung

Yeah, we're a submarine, we sail in sinkin' swamp

dead souls, impunity, insolance, confusion,

disorder, lawlessness, it is a time of lie, an anger, and

tears,

decay, disruption

Time of lie

An anger, and tears, decay, disruption, robber,

jingoism

we toy with TNT, oh, karel, they want to strangle, to

break us

I'm frighten, oh fuck, they mean a bloody juice

Yeah, we're a submarine, we sail in sinkin' swamp

dead souls, impunity, insolance, confusion, lawlessness,

lawlessness, time of lie, time of lie, an anger, and tears,

and decay, disruption

Time of lie

we fret and fume, yes, we fret and fume

Just like rats inside the cage

Do you know, do you know something about madness

Do you know, do you know something about madness

Do you know, do you know something about madness

do you know, do you know something about

something about, something about madness!!

Madness!!

Just like rats inside the cage
