.....Everybody listen to me  
You better stop, don't start me up  
To battle  
2000 years many pretext to fight  
2000 years when one came to unite  
We always fight over what we should say  
Why can't we see that we're on the same way  
So many years so much wasted time  
Lets not repeat the mistakes of the past  
To reconcile there's a chance everyday  
Why can't we see that we're on the same way  
.....Everybody listen to me  
You better stop, don't start me up  
To battle 2000 years so much division and hate  
Why can't we see all the things we agree  
Always the same that's not what I say  
Why can't we see that we're on the same way

2000 years many pretext to fight  
2000 years when one came to unite  
We always fight over what we should say  
Why can't we see that we're on the same way  
.....Everybody listen to me  
You better stop, don't start me up  
To battle  
2000 years many pretext to fight  
2000 years when one came to unite  
We always fight over what we should say  
Why can't we see that we're on the same way  
You better stop, don't start me up  
To battle
