"Erase Me"

I'll never breathe and live in such frustration.
So much tension
And you don't know.

It's easy to fall down in such temptation.
Loss of control,
'Cause I can't say

(Chorus):
Goodbye
Forget me
I can't remember anything about us
Erase me
Erase me
Then wipe the tears and move on

Thinking back when I was lost without you
Turning slowly
As it burned

Don't say a word when I know what you're thinking
Don't stay sleeping
'Cause we won't say

(Chorus)

I've lost all control
Following you down
Lost all control
Following you down that hole

(Chorus)
