Cannot soothe me
And can I wait for the sun?
Curse the sun, May yeah

Left behind me
I drink to what we have lost

The holes fade
And bring them down again
Are real before me

Death defies me
A notion pure before the fun
Crying behind me, yeah

The more you hate me
The more I know that I'm on top
Facsimile, yeah

The holes fade
And bring them down again
Are real before me

I hold it where the water won't
Flood around me
Flood around me

I can blow you away
I can show you a way out
I can tear you apart
Fear by fear

I can blow you away
I can show you a way out
I can tear you apart
Fear by fear

Fear by fear

I can tear you apart

The holes fade
And bring them down again
Are real before me

I hold it where the water won't
Flood around me
Flood around me
