Here lies a great descent
in which we meet again
takes one to really take the fall
in time we suffocate
and over medicate
(_____) gene

Is it easy at all
to just watch it all go
turn again in my mind

where where you years ago
before i lost control
and now you wanna take it all
the lights go dim again
there's nothin needed now(?)
we always look the way to go

Is it easy at all
to just watch it all go
turn again in my mind
say there's one more to go
would you feel it at all
turn again in my mind

(screaming, followed by another insane guitar solo)

is it easy at all
to just watch it all go
turn again in my mind
say there's one more to go
would you feel it at all
turn again in my mind

you're bleeding through (x3)
