"Pollute The Sound"

Visit "[Pollute The Sound](#)" on MotoLyrics.com

You're living out your life
Beyond belief
We've come so far tonight
It's on my mind
It's on the sheets
(the sheets won't help you)
Turn away from making
The same mistake I swear I'd
Never make again
We'll leave through the night
Beyond your needs
Like summer won't last this time
It's on my mind
Still on the sheets
(the sheets won't help you)
Turn away from making
The same mistake I swear I'd
Never make again
You'll never make me hate you
As hard as you want me
As hard as you want me to
You know it's easy to let go
At least we need
At least we tried
To play with something never there
Turn away from making
The same mistake I swear I'd
Never make again
Turning away from making
The same mistakes
How could I
Pollute the sound with you
Pollute the sound with you
Pollute the sound with you
