So take me back, and I won't say
I won't say anything, you wanted it this way
I am numb, and I can't feel
I can't feel anything so, touch me, touch me
We're moving fast, and I can't see
And everything is getting blurry
And it's so cold, when you're not here
I can't feel all those words that you said to me

I think it's time to say goodbye to anything we ever had
They're all watching, they're all waiting for me to make
a move
I'm moving, I'm moving on
Severing all the ties between us

The music dies, and all is calm
Everything is going smoothly
I never thought it would end like this
But you made me, yea you made me
And this is it, lets finish this
So we can all go home
I know it's what you want, I know it's what you need
I'm looking over the edge, you can't stop me
I'm slipping over the edge, oh no, oh no

I think it's time to say goodbye to anything we ever had
They're all watching, they're all waiting for me to make
a move
I'm moving, I'm moving on
Severing all the ties between us

I hope it's raining where you are
