All my family problems disappeared overnight
We're all taking Zoloft and everything is fine
My sister's teen angst just flew out the window
Mama's so happy she laughs all the time

Used to be in trouble gettin' along with each other
Mama hated daddy, I hated little brother
Then the family doctor gave us all these little pills
Now I can't believe how great we all feel

All my family problems disappeared overnight
We're all taking Zoloft and everything is fine
My sister's teen angst just flew out the window
Mama's so happy she laughs all the time

The birds in the trees all sing happy songs
Everyone is smiling, we're so glad to be alive
Even my ol' pitbull don't growl anymore
He just watches that ol' tail wag from side to side

All my family problems disappeared overnight
We're all taking Zoloft and everything is fine
My sister's teen angst just flew out the window
Mama's so happy she laughs all the

And I used to be so unhappy doin' songs about killing
Taking methadone and jacking off four or five times a
day
Now I'm so happy, I'm so goddamn happy
Who needs an orgasm when life's so fucking great?

All my family problems disappeared overnight
We're all taking Zoloft and everything is fine
My sister's teen angst just flew out the window
Mama's so happy she cries all the time
Mama's so happy she cries all the time
Mama's so happy she cries all the time
