Hiding your love is a dangerous thing  
Letting it out would be better for you  
The dreamer's asleep and the face I meet  
Is feeling the heat when he's telling the truth

I know inside there's a river of love  
A river that's water on the sun depends  
Stay in the shade and you'll never get burned  
But love is warm and you will feel it my friend

Love is what you need

Feelings hit without warning  
In a sun shadow silhouette  
When you get lost in the moment  
Is it better yet

Feelings hit without warning  
In a shadow cut by the sun  
When you get lost in the moment  
Then you'll know that you belong

That you belong yeah

Na na na na na na na na na na

Love is a word written in the sand  
You held the tide when I needed you so  
You are burdened with the kindest eyes  
They weigh you down and you better let go

I get lost in your words my friend  
You run further than the deepest sky  
You will find her where the darkness reigned  
And she will travel in your pale moonlight

If you just let love in...

Feelings hit without warning  
In a sun shadow silhouette  
When you get lost in the moment  
Is it better yet

Feelings hit without warning  
In a shadow cut by the sun  
When you get lost in the moment  
Then you'll know that you belong

That you belong yeah  
That you belong yeah  
That you belong yeah  
That you belong  
You belong

Feelings hit without warning  
In a sun shadow silhouette  
When you get lost in the moment  
Is it better yet

Feelings hit without warning  
In a shadow cut by the sun  
When you get lost in the moment  
Then you'll know that you belong

That you belong yeah

Na na na na na na na na na na  
Na na na na na na na na na na

Love is a word written in the sand  
You held the tide when I needed you so  
You are burdened with the kindest eyes  
They weigh you down and you better let go
