Can you hear the distant thunder?  
Feel the rain as it starts to pour.  
Look up and start to wonder,  
Has this all just happened here before?  
And I think I'm feeling something  
That I can't explain.  
It's like we're living in the last days

(Chs)  
We're all living in the Last Days  
You know you're living in the last days  
Whoa ooheaha Last Days  
And the last dance has just begun

I see the whole world changing  
Faster and faster day to day  
Time is Xcelerating  
Welcome to our final destiny  
And I think I'm feeling something  
That I can't explain.  
It's like we're living in the last days.

(Chs)  
I don't know where we're going  
But I don't like where we've been.  
If we have reached the end now,  
I guess we'll have to ride this fucker down!  
And I think I'm feeling something that I can't explain.  
It's like we're living in the last days.

(Chs)  
We're all living in the Last Days  
Do you know your living in the Last Days  
Whoa ooheaha- Last Days  
The Last Dance Has Begun!
