When I first saw you baby,
You were like a tear drop in the rain.
No where to fall to,
Except the cold frozen ground in your pain.
You left all your friends
To walk this world alone.
But I can see by the lines on your face,
That your along way from your home.

(Chs)
Don't Be a Tear Drop In The Rain
Dry up your tears and start again.
And don't be a tear drop in the rain,
If you really want to try again,
Forget about the past, and go on home.

You found a new way to live your life.
The sun is shining the clouds have gone.
And your on your way again,
Straight to the top, no one can hold you down
Won't be a tear drop in the rain.

(Chs)
Don't Be A Tear Drop In The Rain
Dry up your tears and start again,
Don't be a tear drop in the rain
If you wanna start again
Forget about the past,
If your really wanna try again
Then there's nothing left to say.
