Cool hearted love, turnin' around
You brought me to the move
You were sure to turn them down

Your streets are filled
Confused again, which one is your enemy
And which one is your friend?

Look what you've done to your brothers lately
Look what you've done, look what you've done
Look what you've done to your brothers lately, lately

Caught in a trap, caged in by walls
You threw me scraps but I turned them into darts
And now they flew from side to side
They past is gonna get you if the future steps aside,
side

Look what you've done to your brother lately
Look what you've done, look what you've done
Look what you've done to your brother lately, lately,
lately

Out on the bridge, dancin' around
I caught you standin' there
You threw away your doubts

While I was gone, you hit it out
But then I turned around
And found out what you lied about

Look what you've done to your brothers lately
Look what you've done, look what you've done
Look what you've done to your people, lately

Sing me your songs, over your rows
Look what you've done to your sisters lately
Brothers and sisters won't you turn me up around
sayin'
Look what you've done to your brothers lately, now
