V1

Early in the morning
I'm awakened from my sleep
You're kissing and you're touching and you're pressing
on my body
And you're smiling up at me
Good morning to you my lady
How can I oblige
When you tell me that you want an instant replay
Of how we got down last night

PRE

I know what, you're doin
Lady I've paid attention
And if I told you that it's all yours
Then tell me what you're waiting for

CHORUS

You want my love, you want my time
You know it's all yours baby
As long as I know it's just you and I
You know that we can get down baby
You want this body, you want these lips
You know it's all yours baby
As long as I know it's just you and I
You know that we can get down lady

V2

Chillin with our homies girl
And it aint hard to tell
The sexy way you're looking at me up and down
Says let's go somewhere else
Or 2:30 on Monday
When you called me on the phone
You said at work you couldn't get a damn thing done
'cause you wanted to to be with me alone

PRE

I know what, you're thinking
Gimme some of that affection
Well if I told you that it's all yours

Then tell me what you're waiting for

CHORUS

BRIDGE

Early in the morning

Or late in the evening

Whenever you want it, you need it, you got it, I'mma
break you off

We can do it in the bedroom

We can do it out in public

Wherever you want it, you need it, you got it, I'mma
break you off

CHORUS
