VERSE 1:

Just when I'm feeling like we're getting closer
Lady you turn around and drift apart
And now you've got me in a state of confusion
I just don't understand what we are
Tell me girl exactly what it is that you doin'
I know you're feeling my company
But is that all I am to you
Kicking back with someone new
Is that all that you want?

CHORUS:

Say that you don't care and I'll walk away
Say you don't give a damn and I won't stay
But if you feel the same way that I feel
Girl you gotta show it
'cause girl I wanna know it

VERSE 2:

Don't tell me you don't know the situation
Girl I know you know what's goin' on
How we be chillin all day
And making love all night
And still I sense that something is wrong
Maybe there's a part of you that's scared and cautious
Maybe you just don't feel the same
Well whatever it could be
Baby just be straight with me
What exactly is it you want?

LAST CHORUS:

What is it you feelin? What is it you're needin?
I know you know what's goin on.
So if you feel the same way that I feel
Lady cmon break it down
Tell me what it is you want

Just tell me. Tell me what you want.
Baby just tell me. Tell me what you want.
Just tell me. Tell me what you want....
