CHORUS

If you think you be vibin like that
Then lady let me give it right back
If you think you be vibin like that
Tell me where you at, Tell me where you at (2x)

VERSE 1

I've been waiting ever since that look
That's all that it took. And baby the spell you cast, I
never shook
Did it cross your mind that when you delivered your
smile
That if we could spend some time
At the drop of a dime, you could be mine.

VERSE 2

How bout if we take a ride
Conversate till the morning light
Find out what we're all about
I know then without a doubt
That we can hit it off
Without a second thought
If you wanna make some time
At the drop of a dime you could be mine
