The first time, the last time

The first time in my life

Lights will ignite us

We're all blood thirsty killers(x4)

We're all dead[x6]

We're all fucking dead!

The first time, the last time

The first time in my life

Lights will ignite us

We're all dead

Open water, the tides have shifted

Like clockwork, the sharks arrive at dawn

[Background]

This is your captain speaking, please fasten your seatbelt...

Razor cut like a smile(x4)

(Straight through)
