I was broken in, I'm not leaving instead
I broke promises kept, you're absent heart on a string
I thought I told you once, I thought I told you twice
I came here to get what I want, fired two shots in the
sky

You're always scared of the shadows
And still you look like you've seen a ghost
Come back, this heart attack won't spare my lungs
Take it all, take it all

To lure the kill, soften the blow
Take what you want, leave nothing more
Escape from your pride, beg for attention
Lay them aside with good intentions

To lure the kill, soften the blow
Take what you want, leave nothing more
Escape from your pride, beg for attention

I was broken in, I'm not leaving instead
I broke promises kept, you're absent heart on a string
I thought I told you once, I thought I told you twice
I came here to get what I want, fired two shots in the
sky

Two shots in the sky, two shots in the sky
Two shots in the sky, two shots in the sky

You're always scared of the shadows
And still you look like you've seen a ghost
Come back, this heart attack won't spare my lungs
Take it all, take it all, take it all, take it all

Show me that you mean it, the damn kids won't believe
it
Show me that you mean it, the damn kids won't believe

Show me that you mean it, the damn kids won't believe
it

Show me that you mean it, the damn kids won't believe

Show me that you mean it, the damn kids won't believe
